Forecast for Friday 15 Jul 2022

Weather: A dry and bright start to the morning with cloud then moving in from the west and some light showers will move eastwards. Cloud will break up through the afternoon leaving a dry evening with long sunny spells, and feeling very warm in prolonged sun.

Chance of cloud-free hill tops above 600m: 90% to start and end the day, but 70% during the middle of the day.

Low cloud and visibility: Cloud moving in from the west during the morning will mainly be above summits, but may cover the highest summits above 600m. This cloud will break up by midday leaving good visibility across the hills.

Forecast for Saturday 16 Jul 2022

Weather: Some isolated mist and fog patches in the valleys will clear quickly through the morning. Staying generally dry and bright with plenty of prolonged sunny spells and some scattered high cloud at times. Clear skies and patchy cloud continues into the evening and overnight.

Maximum wind: 10mph north-easterly winds in the morning, becoming 5mph south-easterly winds by late afternoon.

Chance of cloud-free hill tops 600m: 90% or greater chance throughout Saturday.

Low cloud and visibility: Isolated mist and fog patches in the valleys and patchy cloud at the summits will bring poor visibility in the early morning, but this will clear quickly. Cloud will be above the summits throughout the day, with excellent visibility across the hills expected, but occasionally hazy at lower elevations.

Temperature: **Valleys:** plus 11C, rising to plus 26C.
At 600m: plus 9C, rising to plus 18C.
Freezing level: above all summits.
